

# 5.0 Leadership

*Thriving Resilience, Sustaining Growth in i50-SDG Era*

## **INDUSTRY 5.0/SDG IMPLEMENTATION VIA HUMAN TECHNOLOGY**

$$i50 = e^{(\text{Change}) (\text{Time})}$$

**Vanessa (Giraud) DOGER DE SPÉVILLE**

Head of Communication & Corporate Sustainability  
MCB Group

Communication & Corporate Sustainability 5.0, Climate Adaptation

With Master's degrees from Université Sorbonne Nouvelle & Western Sydney University, Vanessa (Giraud) DOGER DE SPÉVILLE has more than 20 years working experience and is now the Head of Communication & Corporate Sustainability of the MCB Group.

A passionate Sustainability practitioner, she believes that climate adaptation is important for a Small Island Developing State like Mauritius as it is particularly exposed to the risks of natural disasters, which rising temperatures will likely exacerbate, "That's why it needs to continue to be the subject of many conversations and actions, and what better ambassadors than today's youth, tomorrow's leaders?" If climate change is to be tackled, it cannot be viewed as a binary problem. Although irreversible, we can still influence the degree it will affect us and adapt our activities to better cope with its impacts.
