

## Vrigesh FUTTA

*Executive Director*  
**Mauritius Emerging Technologies Council**

**Industry 5.0 Expert, Strategy, Leadership,  
Outcome-based**

Mr Vrigesh FUTTA is the Executive Director of Mauritius Emerging Technologies Council (METC). With over 15 years of tech business experience across Africa, his expertise spans from smart card technology, system integration, IT hardware/software, and internet services for both B2B and B2C sectors. Vrigesh's tenure with Gartner allowed him to offer strategic IT advisory services to C-Level executives of premier African organizations, with turnovers ranging from 750 M+ USD to 1 B USD+. Additionally, he has also served as a non-executive board member for Mauritius's national government land projects, including Smart Cities and Government Land Development.

Engaging with CIOs, CEOs, and CFOs from top African organizations across sectors like mining, finance, telco, manufacturing, government, and retail has been instrumental in assisting them to harness technology to surpass their business and personal goals. These interactions have not only enriched his professional journey but have also provided insights into the aspirations of leaders shaping the future of their countries. His peers often laud him for his strategic acumen. Driven by impact, Vrigesh has consistently aimed for maximum results, with innovation and organization as his guiding principles.

His academic credentials include a BA (Hons) in English and an MBA in Innovation & Leadership, both achieved on scholarships. His international experience encompasses a diverse range of countries: South Africa, Mauritius, Kenya, Tanzania, Uganda, Ivory Coast, Senegal, Ghana, Nigeria, Morocco, Tunisia, Zimbabwe, UAE, USA, France, and the UK.
